## For the Classic Groom With a Twist

A classic blue 3 piece suit is one of the most elegant wedding outfits for grooms, standing the test of time. For this look, we've used a beautiful tonal textured fabric by Dormeuil that speaks to an understated luxury. The multi-layered weave adds a subtle, polished sheen that elevates the entire look. And, with the covered buttons and vest, this suit is an excellent alternative to the traditional tuxedo.

## For the Sleek Groom

For the groom who wants to look sophisticated and elegant, we've taken a tonal black look and turned it on its head. Rather than an all black outfit, we've designed a rich, deep teal 3 piece and paired it with a black shirt and tie. The dynamic microtexture of this teal fabric creates a sleek and elegant look, perfect for an evening reception.

## For the Timeless Gentleman

Ivory is often associated with the bride's dress when people think of wedding attire, but there is nothing stopping a groom from wearing an elegant Ivory Dinner Jacket. This ivory jacket is made from 100% silk that showcases a unique tonal damask pattern. The ivory satin lapel features a gold shimmer in the fabric that coordinates beautifully with the ivory bow tie and outstanding houndstooth patent double monk slipper. For a timeless look, we've used traditional details like the beautiful cocktail cuffs that tie back into the contrasting fabric of the lapel.
